أسس معهد ماس للتدريب منبثقا من الشقيق الأكبر -دار ماس للاستشارات الهندسية

**ماس** هي كلمة الحل

وكان هدفنا من البداية هو حل المعادلة الصعبة المتمثلة بين ارتفاع تكاليف تطوير العنصر البشري وتدريبه وتطوير كفاءته من جانب وبين المحافظة على جودة العملية التدريبية ومن جانب آخر اتجاه الكيانات الاقتصادية ورواد الاعمال الى ترشيد وتقليل الانفاق ومن هنا برز دور معهد ماس كمعهد مختص بتوفير كافة انواع التدريب الهندسي بتكلفة مناسبة جدا وذات جودة عالية مستعينا باكبر المدربين مهارة واحترافية على المستوى الدولي والاقليمي والمحلي وانطلاقا من هذا الدور الريادي لمعهد ماس وايماننا الراسخ بتنامي دور التدريب والتأهيل في المؤسسات وعظيم اثره في دفع السوق الخليجي قدما للمنافسة اقليميا وعالميا وادراكا لدورنا وتماشيا مع سياستنا قمنا بعقد العديد من الشراكات وبروتوكولات التفاهم والتعاون بين ماس والعديد من المراكز الدولية والاقليمية لمختلف البرامج التدريبية ارساء لمبدىء تبادل الخبرات وتوحيد الرؤى .

علما بان انضمامكم لنا جزء من تميزنا

م.مطلق هدينى الظغيرى

المدير عام

## **Important information**

This brochure contains valuable information regarding the training and training process provided by Mass Training Institute, knowing that the training can be adjusted according to the customer's requirements and needs without compromising the quality of the training in accordance with the international standards in Kuwait and the Arab Gulf countries in general.

We would like to point out that most of the contents of this booklet to be Copy or circulation outside the framework except with prior permission according to intellectual property rights.

يحتوى هذا الكتيب على معلومات قيمة بخصوص انواع التدريب التى يقدمها معهد ماس للتدريب مع العلم انه يمكن تعديل نوعية التدريب تبعاً لمتطلبات العميل واحتياجاته دون المساس بجودة العملية التدريبية والتعليمية طبقاً للمواصفات العالمية المعتمدة بدولة الكويت ودول الخليج العربى عامة ونود ان نشير ان معظم ما ورد فى هذا الكتيب يمنع نسخه او تداوله خارج اطاره الا باذن مسبق وذلك تبعاً لحقوق الملكية الفكرية.

## **Disclaimer**

This booklet and these training specifications are designed by Mass institute according to the international standards & the countries standards of the region (Gulf region) which are generally matched the international standards applicable in Europe and the United States of America.

We are not prepared to meet customer requests if they are in conflict with these standards and global codes

As well as not responsible for any training provided by any other training institute Without the supervision and guidance of us we are Mas Institute

تم تصميم هذا الكتيب ومواصفات التدريب هذه من قبل معهد ماس وفقاً للمعايير الدولية ومعايير الدول في المنطقة (منطقة الخليج) والتي تتماشى بشكل عام مع المعايير الدولية المعمول بها في أوروبا والولايات المتحدة الأمريكية.

انتبه عزيزى العميل نحن لسنا على استعداد لتلبية طلبات العملاء فى حالة تجاهلهم لهذه المعايير الدولية و العالمية

وكذلك لسنا مسؤولين عن أي تدريب يقدمه أي معهد تدريب آخر مطابق للأنحة التدريب المعتمدة لدينا دون إشراف وتوجيه منا نحن معهد ماس

**Mass** Institute for Engineering Training is a Kuwaiti institute to provide consultancy and training founded in 2011 with 20 years of experience in a broad portfolio of projects.

**Mass** Institute for Engineering Training is one of the largest national institutes in the State of Kuwait, which is always provide the high quality of the training process dedicated to our clients.

Because you are our customer, this is because you are distinguished

**Mass** Institute has been accredited by all government agencies in Kuwait and several ministries to provide the different engineering training, including training of occupational safety, health and environment in accordance with the technical standards in Kuwait which are in line with international standards

Our goal is

1. To achieve satisfaction by delivering the top of the line services with complete reliability and quality control.
2. To reach the workers, supervisors and engineers of the contractors' companies in order to increase the knowledge of their work. This will eventually lead to an improvement in the production process and its productivity.

Based on this pioneering role of Mas Institute, we are committed to providing for all our clients

1. The best training quality
2. The best qualified training staff to carry out the training and education process
3. The best training price at the Kuwait market
4. The best time to issue the certificate with delivery

معهد ماس للتدريب الهندسي يعد من احد المعاهد الوطنية العملاقة بدولة الكويت والذي يتميز دائما بجودة العملية التدريبية المهداة منا الى عملائنا المتميزين.

كونك عميل لدينا فهذا لائق متميز

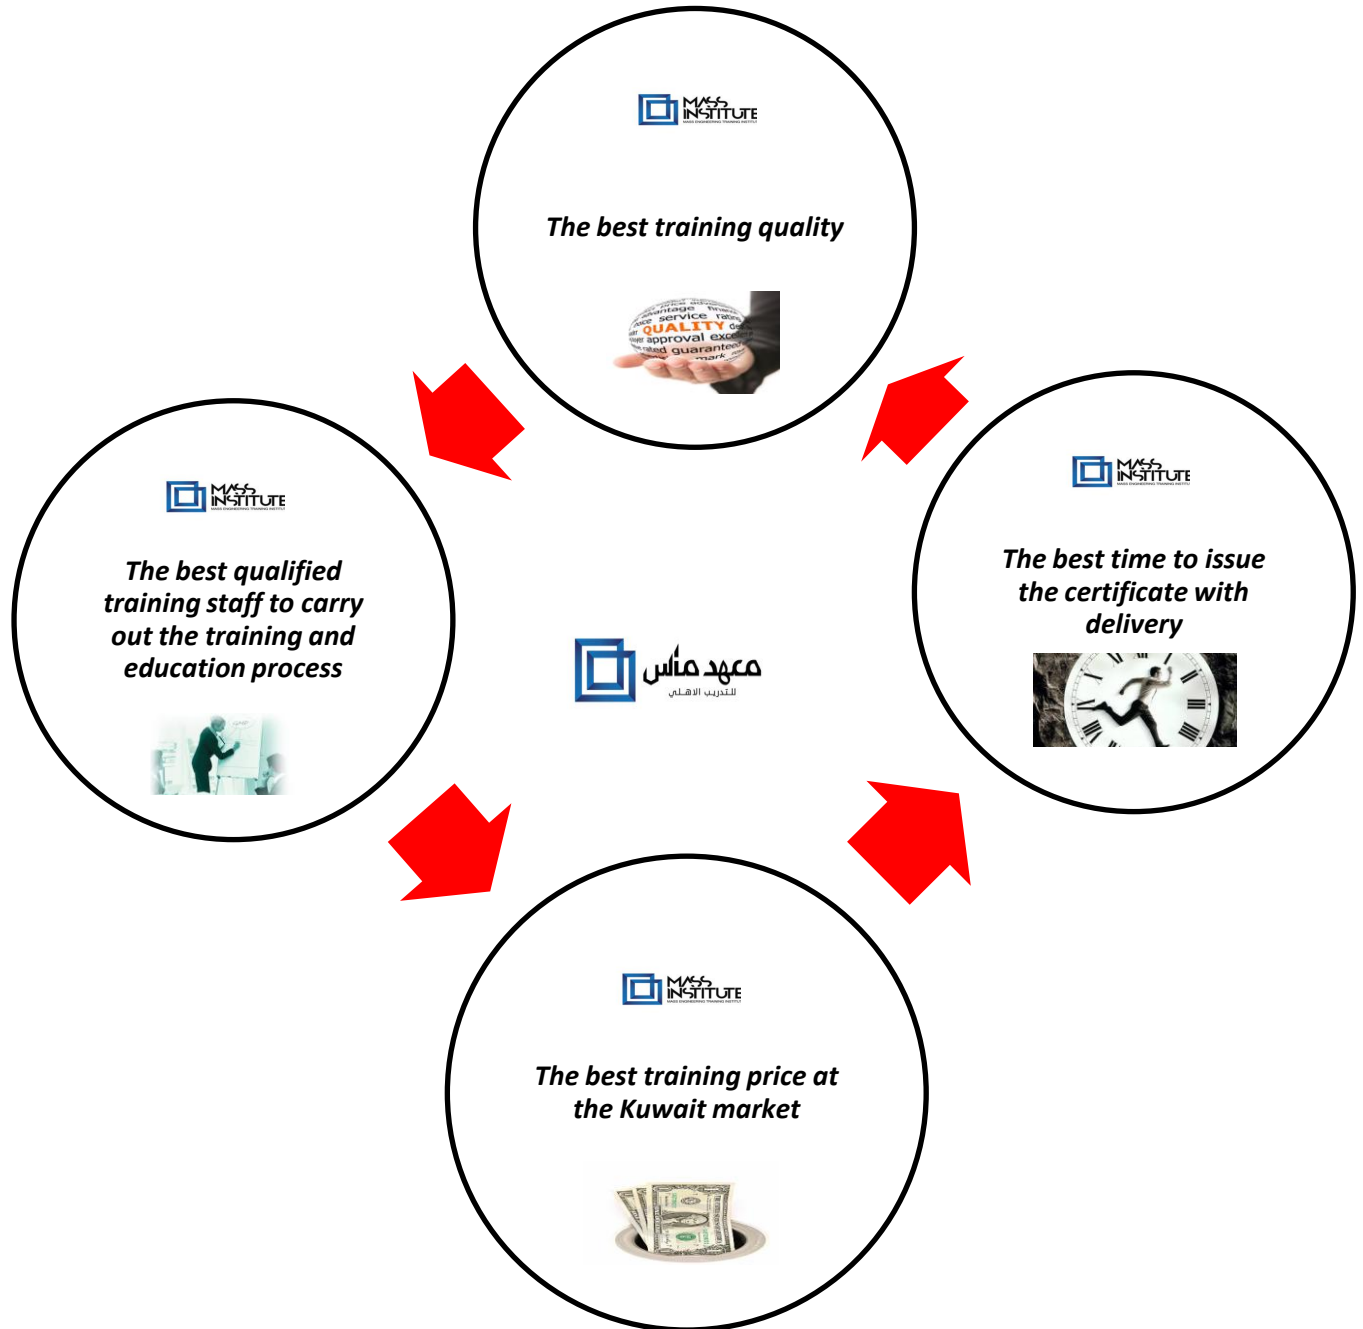

معهد ماس تم اعتماده من قبل كل الهيئات الحكومية بدولة الكويت والعديد من الوزارات بدولة الكويت لتقديم نوعية التدريب الهندسي بما يشمل تدريب السلامة والصحة المهنية والبيئة وفقا للمعايير الفنية المعمول بها بدولة الكويت والتي تتماشى مع المعايير الدولية

هدفنا هو الوصول بعمال ومشرفين ومهندسين وشركات المقاولين الى زيادة الكم المعرفي والمعلوماتي الخاص بعملهم ليؤدي ذلك في نهاية الامر الى تحسين العملية الانتاجية وزيادتها مما يساهم في دفع عمالة فنية مؤهلة و مدربة للعمل في كافة قطاعات الدولة لتحسين سير العملية الانتاجية لينعكس ذلك على سوق العمل الكويتي

وانطلاقا من هذا الدور الريادي لمعهد ماس فاننا نلتزم امام كل عملائنا الكرام بتقديم افضل الكوادر التدريبية المؤهلة للقيام بعملية التدريب والتعليم

والجديد هنا اننا نقوم كخدمة مجانية بتقديم الدعم الفني والمعلوماتي لعملائنا المتميزين

**What is new here is that we are providing free and technical support to our Special Customer**

## 2. HSE training summary

**MASS is a Certified Training Institute registered in Kuwait and the GCC region specialized in providing HSE & Technical training for Oil sector, Government, and Public. Part of our strength comes from the fact that we have developed large experience in the market with professionals and qualified training experts and staff. MASS seasonal training plan runs throughout the year and includes technical and HSE courses while the customized training workshops and programs can be designed for groups of more than 5 individuals. These can be designed around the client's nature of work. Using the latest calibrated equipment with professional updated Course materials for the trainees reference.**

### Customized Courses

1. H2S Safety Awareness SCBA Training Course

2. First Aid / CPR Training Course

3. Fire Fighting Training Course

4. Defensive Driving Training Course

5. Banksman & Slinger

6. Scaffolding (Erectors & Inspectors)

7. HAZCOM & MSDS

8. Emergency Evacuation Preparedness

9. Safety Leadership & Skills

10. STOP / BBS Training Course

11. Hands & Finger Safety

### 3-consultancy solution and other service

As a team of Mass training institute, our role is to assist you in meeting the current Health and Safety requirements. Our approach is very hands-on as we have found that many businesses find making the time to deal with all aspects of Health and Safety quite difficult. We have devised a very simple but effective Safety Management System that assists the management team to maintain good practices. We help you from your initial enquiry listening to your needs to understand the best consultancy solution.

Mass training institute is a team of highly qualified trainer & Consultants who combine their expertise with your business needs. The safety needs of clients are paramount to our organization and you can feel confident that your safety is in good hands. To achieve this objective we provide world class Safety Consultancy service.

These services include advice and assistance with supply, calibration and maintenance of all Fire prevention and control equipment, Safety Signboards, Lock-Out Tag-Out devices, Atmospheric Monitoring, respiratory protection equipment and all other types of Personal Protective Equipment.

## 4. Mass Partner & Accreditation

- O. Fire fighting**
- P. First aid**

## A. NASP DIPLOMA

*Module 1: Introduction to NASP and the OSH Act*

*Module 2: Recordkeeping*

*Module 3A: Basic Safety Orientation*

*Module 3B: General Safety and Health Provisions*

*Module 4: Health Hazards: Hazard Communication*

*Module 5: Health Hazards: Hazardous Materials*

*Module 6: Process Safety Management: (PSM)*

*Module 7: Personal Protective Equipment*

*Module 8: Fire Protection*

*Module 9: Materials Handling and Storage*

*Module 10: Hand and Power Tools*

*Module 11: Welding and Cutting*

*Module 12: Focus Four - Electrical Safety*

*Module 13: Focus Four - Struck-By and Caught in Between Hazards*

NATIONAL ASSOCIATION OF SAFETY PROFESSIONALS USA OCCUPATIONAL HEALTH AND SAFETY TRAINING PROGRAMS

## **B. OSHA 30 H construction**

**Module 1:** Introduction to NASP and the OSH Act

**Module 2:** Focus Four - Fall Protection

**Module 3A:** Basic Safety Orientation

**Module 3B:** General Safety and Health Provisions

**Module 4:** Health Hazards: Hazard Communication

**Module 5:** Scaffolds

**Module 6:** Process Safety Management: (PSM)

**Module 7:** Personal Protective Equipment

**Module 8:** Fire Protection

**Module 9:** Materials Handling and Storage

**Module 10:** Hand and Power Tools

**Module 11:** Welding and Cutting

**Module 12:** Focus Four - Electrical Safety

**Module 13:** : Hazardous Materials

**Module 14:** Recordkeeping

**Module 15:** Cranes and Rigging

**Module 16:** Motor Vehicles

**Module 17:** Excavations

**Module 18:** Concrete and Masonry Construction

**Module 19:** Stairways and Ladders

**Module 20:** Confined Spaces

**Final Exam**

## **C. OSHA 30 H industrial**

*Module 1A: Introduction to OSHA and the OSH Act*

*Module 1B: Basic Safety Orientation*

*Module 2: Walking & Working Surfaces*

*Module 3: Emergency Action Plan*

*Module 4: Hazardous Materials*

*Module 5: Hazwoper*

*Module 6: Personal Protective Equipment*

*Module 7: Confined Spaces & Permit Required Confined Spaces*

*Module 8: Lockout/Tagout*

*Module 9: Materials Handling & Storage*

*Module 10: Machine Guarding Safety*

*Module 11: Welding, Cutting, and Brazing*

*Module 12: Electrical Safety*

*Module 13: Hazard Communication*

*Module 14: Hazardous Substances & Industrial Hygiene*

*Module 15: Bloodborne Pathogens*

*Module 16: Record Keeping & Reporting*

*Module 17: Workplace Violence*

*Module 18: Safety and Health Programs*

*Module 19: Ergonomics*

*Module 20: Hazards of Asbestos in the Workplace*

*Module 21: Lead Safety in the Workplace*

*Module 22: Ionizing and Non-Ionizing Radiation Safety*

*Module 23: Formaldehyde Awareness*

*Module 24: Process Safety Management of Highly Hazard Materials*

**Final Exam**

## ***D. Confined space safe entry procedure***

### **Module 1**

*Definition of confined space*

*Hazards and Dangers associated with confined spaces*

*Characteristics of confined space*

### **Module 2**

*Safe operating procedures in confined spaces*

*Duties of the support personnel for confined spaces*

*Understand the Permit to work system (PTW)*

### **Module 3**

*Practical confined space entry/rescue (horizontal and vertical).*

*Emergency procedures and rescue of personnel in confined spaces*

### **Module 4**

*Inspection, donning, doffing, and use of Self Contained Breathing Apparatus (SCBA) or Supplied Air System (SAS) in normal operation and in emergency rescue conditions.*

## ***E. Working at height***

- a) *Rights and responsibilities*
- b) *General hazard recognition*
- c) *Hierarchy of controls*
- d) *Procedures for warning methods and physical barriers*
- e) *Procedures for safety equipment*
- f) *Personal protective equipment (PPE)*
- g) *Barrier and safety nets*
- h) *Anchor points*
- i) *Work positioning systems, work access equipment and platforms*
- j) *Rescue and planning*

## ***F. Scaffolding training institute courses (competent person-erectors and inspector)***

1. Introduction to Scaffolding
2. Various types of scaffolds
3. General safety requirements (foundations, fall protection ,platforms, etc.)
4. Accepted international code
5. Step by step assembly procedures
6. Inspection of completed scaffolds.
7. Field trip/hands on
8. Planning a scaffold job
9. Scaffold hand on
10. Design of Scaffolds
11. Underhand Scaffolds
12. Drawings
13. Material Calculation
14. Calculation of Loading
15. Applications
16. Review of previous material
17. Scaffold hand on
18. Scaffold hand on
19. Testing
20. Review of Test

## ***G. IOSH Managing safely***

- *Introducing Safety Management*
- *Assessing & Controlling Risk*
- *Understanding your Responsibilities*
- *Identifying Hazard*
- *Investigating accidents and incidents*
- *Measuring performance*
- *Protecting our environment*

**Accreditation Body: IOSH**

**Examination :**Assessment + Project Submission

## ***H. IOSH Working safely***

- *Why staff must work safely*
- *Staff's responsibility towards health, safety and wellbeing*
- *The difference between hazards and risks*
- *Hazard and risk identification, impact and how to control them*
- *The importance of safety performance within the workplace and how to improve it*
- *How industry affects*

## K. Authorized Gas Tester

- *Confined space criteria*
- *The hazards of operations within an oxygen deficient, toxic or flammable environment*
- *Carrying out a suitable and sufficient risk assessment (TBRA) or (KBRA)*
- *Using safe systems of work*
- *The implications of organisational and statutory requirements*
- *Interpreting operational requirements*
- *How to select, use and care for PPE and RPE*
- *Working within the Permit to Work system*
- *The operating principles of atmosphere monitoring and measuring equipment*
- *Gas detector pre-start checks*
- *Calibrating the instruments used in atmospheric testing*
- *How to set up the relevant detector for each gas testing application*
- *The behaviour of different flammable and toxic gases*
- *The range and frequency of tests*
- *Acceptable levels of flammable and toxic gases*
- *Performing gas tests in sequence*
- *Obtaining a representative atmosphere sample*
- *Monitoring and retesting*
- *Where to site portable or transportable equipment that will be used to continuously monitor the atmosphere*
- *Interpreting and documenting the results*

## **L. Crane Operator competent person**

- Definitions
- Crane Types & Components
- Crane Set up
- Crane Safety
- Operator Responsibilities
- Rigging Principles
- Assembly and Disassembly
- Crane Operation
- Capacities and Load Charts
- Technical Accuracy
- Depth Perception

## **M. Rigging & slinging**

- The Rigging Plan (Risk Management)
- Load Control
- The Rigging Triangle
- Basic rigging hitches
- Required PPE
- Riggers duties & review of the standard
- Hand signals and communication
- Application & inspection of rigging hardware
- Application & inspection of slings
- Working with blocks
- Wire rope clips and other terminations
- Inspection of hardware

## ***N. Banks man Competent person***

- *BANKSMAN and DRIVER responsibilities.*
- *The correct procedures in assisting a vehicle's safe operation.*
- *Ensure that there is a TSTI.*
- *Assess the area with the Banksman prior to the start.*
- *Agree on signals to be given with the Banksman.*
- *Ensure you only operate vehicle with a Banksman.*
- **STOP WORK PROCEDURE**
- *Controlling the operation of a vehicle on site*
- *BANKSMAN tools*
- *BANKSMAN signal*
- *Hand signal*
- *Hand on training*

## O. Fire fighting

- Introduction to what's fire?
- Elements of Fire
- Fire Triangle and Tetrahedron
- Gases
- Liquids
- Solids
- Ignition in the triangle
- Chemical
- Electrical
- Mechanical
- Oxygen percentages
- Chain reaction
- Phases and nature of fire
- Flammability
- Combustibility
- Phases of Fire
- Incipient Phase
- Free Burning Phase(flashover)
- Smoldering Phase(back draft)
- Classes of Fires
- Fire Extinguisher Basics
- Classes of Fire Extinguishers
- Rating System of Fire Extinguishers
- Limitations of Portable Fire Extinguishers
- Inspection and Use of Fire Extinguishers
- Fire Detection and Alarm Systems
- Fire Marshal responsibilities.
- Evacuation Routes and Exits
- To Fight or Flee? The teacher's Decision
- Medical Assistance

## ***P. First aid***

- *First Aid, Good Samaritan laws, EMS System, Standards of Care*
- *Recognizing and Responding to Emergencies, Avoiding Infectious Diseases*
- *Basic Life Support: Rescue Breathing, Choking, CPR, AED*
- *Bleeding & Wound Care, Shock, Burns*
- *Head, Spinal, Chest, & Abdominal Injuries*
- *Bone, Joint & Muscle Injuries*
- *Sudden Illness: Cardiac, Stroke, Respiratory, Seizures, Diabetes Poisonings, Bites & Stings*
- *Heat, Cold, & Environmental Emergencies*
- *Rescuing & Moving Victims*
- *Hands-on exercises*

## 6. Approvals

Ref :

Date :

# دولة الكويت ديوان الخدمة المدنية Civil Service Commission

٢٠١٧ / ٤٨ / ٢٣

٢٠١٧ / ٧ / ١٨

التاريخ

السيد المحترم / مدير ماس سافز للتدريب الأملي

تحية طيبة وبعد . . .

## الموضوع: تسجيل المعهد لدى ديوان الخدمة المدنية

نظرا لاستهلاكك البيانات الخاصة بمؤسسات ومعااهد التدريب والانشاتات المحلية لتسجيل لدى ديوان الخدمة المدنية لعام ٢٠١٧/٢٠١٨م.

لذا فانه يرخصك علما بأنه تم ابراج معكم ضمن الجهات التي يتعامل معها الديوان في مجالات التدريب التالية:

- ١- برامج هندية في ( خدمات كهربائية و ميكانيكية ).
- ٢- برامج هندية في ( مباني و تشاات و تخطيط مدن ).

و قد اصطلت هذه الشااة باعا على طلبك دون اذني مسؤولية تتحملها الديوان علما بأن ترخيص الهيئة العامة للتعليم التطبيقي والتدريب ساري حتى ٢٠١٨/٠٨/٣١

كما نلت التاهكم في ضرورة تسجيل ترخيص المعهد في حال انتهائه مع ضرورة تزويد مركز تنمية الموارد البشرية بنسخة منه لتحتوي بيانات معكم، علما بأنه سيتم وقف التعامل مع المعاهد التي لم تجدد ترخيصها من قامة تعامل الديوان والجهات الحكومية مع المعاهد التدريبية دون الحاجة لتلقيه على ذلك .

وتقضيما بقبول واقر التقدير والاحترام . . .

رئيس الديوان

محمد بن عبد الله

Attn.: Mr. Motlaq Al-Dhafeeri

Dear Sir,

This is to acknowledge with thanks receipt of your Consulting Firm Registration Form dated 21 / 12 / 2015.

Please be informed that your firm is now duly registered with the Kuwait Fund Register for Consultants, under Form No. 659, kindly refer to this number in all your future correspondence.

We would like to remind you that the Kuwait Fund Register for Consultants elapses after five years from the date of registration unless updated. Therefore, please make sure to send the updated information periodically.

With best regards,

Marwan A. Al-Ghanem
